BODY COMPOSITION MONITOR

- Stylish platform with innovative touch panel***
- 8 full-body measurements***
- Transparent electrodes offer aesthetic appeal***
- Recalls prior measurements for comparison***
- Rugged tempered glass platform***

This scale is a unique and highly accurate body composition monitor. This product not only measures weight and body fat, it also tells you your muscle mass, body water %, daily caloric intake (DCI), metabolic age, bone mass, and visceral fat. The muscle mass feature indicates the weight of muscle in the body. The Body Water % is the total amount of fluid in the body expressed as a percentage of total weight. The DCI reading is the daily amount of calories your body requires to maintain your current weight. The Metabolic Age compares your basal metabolic rate to the average age associated with that level of metabolism. The Bone Mass is the weight of your bone in your body. The Visceral Fat is the fat in the abdominal cavity (stomach), surrounding the vital organs. This scale features a distinctive full glass platform with transparent electrodes and unique touch sensitive controls

Measurements Include:

- ✓ Weight
- ✓ Body fat %
- ✓ Body water %
- ✓ Muscle mass
- ✓ Daily Calorie Intake
- ✓ Metabolic age
- ✓ Bone mass
- ✓ Visceral fat rating

Specifications:

- ✓ Capacity: 330lb (150 kg)
- ✓ Weight increments: 0.2lb (0.1kg)
- ✓ Body Fat Increments: 0.1%
- ✓ Tempered glass platform
- ✓ Transparent electrodes and keypad
- ✓ Guest Mode & Athlete Mode
- ✓ Power Supply:
2 X CR2032 lithium batteries (included)
- ✓ Dimensions: 13" x 12.7" x 1.7"
- ✓ Weight: 4.1 lb
- ✓ 1 year warranty
