permanent record
retention (EMR)***

BD-815U

PEDIATRIC / NEONATAL SCALE

One gram increment resolution feature guarantees incredible sensitivity for your smallest patients. The BD-815U baby scale is specifically designed to weigh premature infants and babies that are having difficulty gaining weight. It measures in 0.1 oz increments up to 12 lbs. and 0.2 oz up to 33 lbs. When the AC adapter is used, the 1.3" display features a blue backlight making the weight very easy to read. Other features include a removable basket for easy cleaning, memory, recall, and an RS-232 output so data can be captured electronically. The BD-815U features Tanita's premier-quality manufacturing for long life and owner satisfaction.

**Optional
Accessory**

**C-110
Carrying Case**

Features:

- ✓ Weight gain
- ✓ Recall
- ✓ Weight lock off
- ✓ Motion stop
- ✓ Soft baby mat
- ✓ Weighing system: single-point load cell
- ✓ Removable basket

Optional Accessory:

- ✓ C-110 Soft Carrying Case

Specifications:

- ✓ **Max. Weight Capacity:** 33 lb (15 kg)
- ✓ **Weight Graduation:**
 - 1-12 lb / 0.1 oz (0 - 6 kg / 2 g)
 - 12 - 33 lb / 0.2 oz (6 - 15 kg / 5 g)
- ✓ **Extend feature:** allowing 1 g (0.05 oz) weight increments, up to 33 lbs.
- ✓ **Dimensions:** 16.1" x 23.6" x 6.2"
- ✓ **Display:** 1.3" x 3.5" Single Line LCD
- ✓ **Unit Weight:** 10.1 lb (4.6 kg)
- ✓ **Power Source:** 4 x AA Batteries (included), DC 9V 200 mA (included)
- ✓ **3 Year Warranty**
