BF-350 BODY COMPOSITION ANALYZER

The BF350's self-contained unit displays weight, body fat percentage, and body mass index (BMI). It's an **FDA cleared** affordable, portable system for mainstream healthcare and fitness providers. By adding Tanita's Health Ware, you have the ability to download this information as well as additional measurements, such as: fat mass, fat free mass, basal metabolic rate, total body water, and impedance, via the RS232 output.

Features:

Data Shown on the LCD Display:

- ✓ Weight
- ✓ Body Fat %
- ✓ BMI

Additional data available using Tanita HealthWare™:

- ✓ Fat mass
- ✓ Fat free mass
- ✓ Body water mass
- ✓ Body water %
- ✓ Daily caloric intake (DCI)
- ✓ Basal metabolic rate (BMR)
- ✓ Impedance

Specifications:

- ✓ **Max. Weight Capacity:** 440 lb (200 kg)
- ✓ **Weight Graduation:** 0.2 lb (0.1 kg)
- ✓ **Platform Size:** 13.5" x 13.5" x 4"
- ✓ **Unit Weight:** 16.5 lb
- ✓ **Power Source:** AC Adapter (Included)
- ✓ **Computer Interface:** RS232C
- ✓ **3 Year Warranty**

Optional Accessories:

- ✓ C-300 Soft Carrying Case
- ✓ HR-200 Height Rod
