

HS-303F

SOLAR BATHROOM SCALE

No batteries to replace, ever!

Reduced cost of ownership

Helps protect the environment

Solar cell works with regular household lights

Easy to read 1.3 inch LCD display

The FitScan HS-303F Solar Scale provides users with accurate weight analysis on its large digital display and new, wider platform. The HS-303F draws its power via the integrated solar cells, which are able to quickly gather energy - whether it's being used in a sunny room or one lit by regular household lights. The elimination of batteries reduces cost of ownership while helping to protect the environment.
