KW-210

HIGH CAPACITY SCALES

These general purpose scales are intended for applications requiring a higher capacity and larger weighing platform. The KW-210 series scale has been designed for both durability and accuracy. This scale features a **water and dust proof** housing design for continued accuracy in the harshest of environments and comes with a removable and washable stainless steel tray. Readable in lb/oz and grams, it provides fast, accurate results with precision even in high humidity environments. Features an extra large LCD display and tare weighing function.
