MC-780U Plus S Travel Package

SEGMENTAL MULTI FREQUENCY BODY COMPOSITION ANALYZER

The MC-780U Plus S Multi Frequency Segmental Body Composition Analyzer is **FDA Cleared** and perfect for providing an instant analysis of a client's health and fitness status and monitoring their individual progress over time. The MC-780U Plus S has been designed to be an interactive, stand-alone unit where clients can step on, input their personal data and take a measurement without specialist assistance. A full body composition analysis is performed in less than 20 seconds. The dual display console clearly shows the body composition measurement results and detailed segmental analysis in an easy-to-read illustrative format.

The measurement results are sent to a PC or transferred directly to a printer so full guidance notes can be printed for further discussion. All user data can be stored and used for detailed trend analysis using Tanita Health Ware® Software or measurements can be stored on an SD card.
