pedestal option
to create a
sophisticated
clinical package*

*USB output is EMR
ready, providing ready
capability for HITECH
Act compliance*

SC-331S

*SC-331S
with optional
column kit*

SC-331S

TOTAL BODY COMPOSITION ANALYZER

The Tanita SC-331S professional body composition monitor uses Tanita's advanced non-invasive, **FDA cleared**, bioelectric impedance technology to accurately measure over 20 health and fitness parameters. Now includes body fat ranges for children, and new Healthy Range Indicators which automatically compare several key measurements to their respective healthy range.

The Wrestler Mode option helps determine a wrestler's minimum wrestling weight based on established guidelines. Preset with both Collegiate and High School minimum body fat percentile standards, the SC-331S gives you the ability to use the same machine for any weight class of wrestlers.

Using the USB data interface, users are able to program the SC-331S remotely as well as output the data for EMR applications. When paired with Tanita HealthWare software, users are given the ability to scrutinize and graph the data, dissecting and contrasting body composition measurements to reveal genuine health and fitness levels.

Features:

✓ Results printout in 20 seconds with readings for:

- Weight
- Impedance
- FAT %
- FAT Mass
- Fat Free Mass
- Total Body Water %
- Total Body Water Mass
- Muscle Mass
- Physique Rating
- BMR
- Metabolic Age
- Bone Mass
- Visceral Fat Rating
- BMI

✓ Or export data using the USB interface

✓ Age Range: 5 - 99 years

✓ Multiple Modes of Operation

- Weight Only Mode
- Athlete Mode
- Goal Setter Mode
- Wrestler Mode

✓ User Friendly LED Lamp Navigation

✓ Compatible with Tanita Health Ware™ Software

Specifications:

- ✓ **Weight Capacity:** 600 lb (270 kg)
- ✓ **Weight Graduation:** 0.2 lb / 100g
- ✓ **Output Data Interface:** USB (Type-B)
- ✓ **Power Source:** 7V (AC Adapter)(Included)
- ✓ **3 Year Warranty**
